

Mogadishu Airport Snapshot

The Mogadishu International airport also known as Aden-Adde International airport is the international airport for Mogadishu, the capital of Somalia. The Somali Civil war has caused continual disruption to the airport's operations in recent years. However current situation at Mogadishu is calm and this has attracted more international flights and airlines such as Turkish Airlines.

Runway

- Mogadishu Airport has one main runway (Runway length: Approximately 3.1 km).
- Aircraft should fly in from the sea-side

Immigration

- UNLP and Diplomatic Passports – Exempted from fees at Immigration.
- Somali Nationals 50 USD Visa Payment is required.
- Immigration Forms to be filled in, available on UNHAS & International Flights.

Ground Handling

- SKA Air and Logistics operates all ground handling at the airport

Hours of Operation

- The airport operates from sunrise to sunset usually 0500 – 2000 hrs. Most Airlines stick to 0600 to 1800 hrs.

Fuel

- Sole provider for fuel is Supreme at Mogadishu

Equipment available

- 5 mt forklift
- Air Starter
- General Cargo and Baggage handling equipment
- Marshaling
- 15,000 mt warehouse (Only for Transit cargo).

Airport Facilities and instructions

- There is no navigation or landing system yet, (ILS system is being build expected to be in service soon)
- Large Cargo flights (DC-8 size) are recommend to land before noon so truck loading may finish quickly, and the trucks and aircraft may depart prior to the end of daily airport operations (1800hrs)
